

Beware of OTP or Link-Based Cheating

Scammers send messages with offers and links of prizes and ask victims to open the link and follow the procedure to get the money.

Precautions

1

Verify Links and Messages

Avoid clicking on links from unknown sources or messages that seem too good to be true.

2

Do Not Share OTPs

Never share OTPs with anyone, even if they claim to be from a legitimate company or bank.

3

Use Official Channels

Access services or offers through official websites or apps, not through links sent via text messages or emails.

4

Enable Security Features

Use two-factor authentication and other security features on your accounts to add an extra layer of protection.
