

STOP DIGITAL ARREST SCAMS

Fraudsters falsely accuse victims of cybercrimes and threaten arrest unless money is transferred to their accounts.

How It Works:

- **Fake Accusations:** Claim misuse of SIM cards or Aadhaar in crimes like money laundering or drug trafficking.
- **Impersonation:** Use fake FIRs, arrest warrants, and video calls dressed as police to appear legitimate.
- **Financial Exploitation:** Pressure victims to transfer money to avoid "arrest."

Tactics Used by Scammers:

- **Social Engineering:** Psychological tricks to access personal information.
- **Impersonation:** Fake identities as law enforcement officers or legal professionals.
- **Fear-Mongering:** Immediate threats of arrest and public disgrace.

How to Protect Yourself:

- ✓ Verify unknown calls.
- ✓ Stay calm; don't respond immediately.
- ✓ Be skeptical; never share OTPs or credentials.
- ✓ Report suspicious activity:
- 📞 Call 1930 or visit cybercrime.gov.in.

REPORT AND FIGHT BACK!

- File a report on the Cyber Crime Portal.
- Preserve evidence like communication and transaction details.
- Consult with cyber experts for support.

Stay Alert. Report Scams. Protect Yourself.
