Beware of **DIGITAL ARREST SCAMS**

Stay Calm and Do Not Panic

Scammers use urgency to pressure victims. Remember, real law enforcement never demands money or issues arrest warrants over calls. Stay alert!

Verify the Caller's Identity

If contacted by someone claiming to be from law enforcement, don't share info or pay. Hang up and verify with the agency directly.

Be Cautious with Unsolicited Communications

Avoid unexpected calls, messages, or emails asking for personal or financial info. Legitimate agencies won't request sensitive details.

Look for Warning Signs

Be wary of urgent or threatening messages demanding immediate or unconventional payments - common tactics used by scammers.

Educate Yourself and Others

Stay aware of common scams and share this knowledge. Awareness is your best defense against fraud.

Report Suspicious Activity

If you suspect a scam, report it to the national cybercrime portal or Dial 1930. Prompt action can protect others from becoming victims.
